HOW DO YOU INTEGRATE AI INTO YOUR BUSINESS?

IT'S ALL ABOUT THE PROMPTS . . .

By the end of this Ai workshop, participants will be able to:

- Explain Basic AI Concepts - Gain a clear understanding of the fundamental concepts behind AI.
- Develop Better and More Effective Prompting - Learn to craft precise and effective prompts to maximize the potential of generative AI (remember 'garbage in equals garbage out').
- Practice using Generative AI - Engage in practical exercises that demonstrate the use of generative AI in real-world scenarios, enhancing your hands-on experience.
- Create Your Own Basic GPT - Create and customize your own simple GPT.
- Generate Ideas for Immediate Implementation of AI in your Business and Personal Life - Determine how you can integrate AI into your daily business operations and personal life.

Designed for those eager to master this pivotal technology, this workshop will guide you through the essentials of ***effective prompting and strategic use of ChatGPT*** to enhance efficiency, save time, and improve both your professional and personal life.

AI is set to be the most transformative, disruptive, and exciting technology of the 21st century, impacting every industry, every job, and every aspect of our lives.

As you begin to understand the power of these tools and their practical applications, you will be able to immediately reduce your workload, save time, become more efficient, and prioritize what truly matters.

This workshop is your first step toward mastering AI, preparing you to navigate the vast possibilities ahead and ensure you can thrive in the evolving digital landscape. Once you master the basics, you can start to plan out how to incorporate AI solutions in your business

Workshop Facilitator

Jennifer Hufnagel is an accomplished corporate trainer and operations consultant based on Vancouver Island. Supported by a Business Degree in Entrepreneurship from the UVIC, Jennifer has spent the last 25 years as a Learning & Development Specialist and Business Consultant.
